

WIDDEN PRIMARY SCHOOL

RESTRAINT AND PHYSICAL INTERVENTION STATEMENT

Widden Primary School does not use physical intervention or restraint as a matter of course. A wide range of strategies are used to defuse situations which include allowing the child adequate time to calm and then reflect upon events, withdrawal with trusted members of staff and opportunities to air and share any grievance they feel that they have suffered. In extreme cases staff will remove the other children from the immediate area whilst maintaining sight of the child.
